Response to Amendment

1. Applicant's arguments of August 2, 2007 have been entered and have been fully considered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

3. Claims 1 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kelly in view of Parmentar et al.

Kelly discloses a method of atomizing a liquid, the method comprising supplying the liquid to an internal volume 26 of a nozzle body 12 under pressure and applying a pulsed voltage to an electrode 38 to bring about electrostatic charging of the liquid as recited, wherein the atomization quality is influenced by changing the magnitude of the pulsed voltage. Kelly does not disclose the nozzle body being on ground potential.

Parmentar et al. teaches an electrostatic liquid atomizer comprising a nozzle 10 which is put on ground potential for safety. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the device of Kelly by placing the nozzle body on ground potential as taught by Parmentar et al. for safety purposes.

Allowable Subject Matter

4. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed August 2, 2007 have been fully considered but they are not persuasive. Parmentar et al. state that the nozzle body is grounded via the bracket 16 (column 4, lines 14-15), and Kelly is modified with this teaching. Therefore, the combination of Kelly and Parmentar et al. disclose the instant invention.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
